What are your observations of
this simulation from the
perspective of YOUR region?

What are **advantages** of being
relatively isolated?
Of being in the middle?

What are **disadvantages** of being
relatively isolated?
Of being in the middle?

What new items and ideas
was your region exposed to?

How did this simulation
model actual trade?

Would you have adopted some ideas or beliefs into your society?

Would you have had to change or adjust any of your ideas to fit in with your society?

What did you learn today?
